ABOUT PBT WORKS COMPANY

PBT Works s.r.o. is the outstanding producer of SMT screen and stencil printing machines. Company maintains firm position within manual and semi-automatic printers mainly due to unique stencil-to-board alignment technology as well as stabil and reproducible printing process.

- ☐ Since 1992
- ☐ More than 3000 printers installations wordwide
- □ 55 employees work permanently to satisfy our customer's needs
- ☐ More than 50 representatives worldwide
- □ 2500 m2 company facility
- ☐ ISO 9001 and ISO 14001 conform

- Our design team converts research ideas into the most up-to date equipment
- ☐ Complete in-house mechanical, hardware and software design
- ☐ Flexibility in customer specific requirements

- Complete pre-assembly manufacturing
- Self-reliant precise production

- ☐ Entire machine building and final quality check within our company
- □ SPC during the complete production process

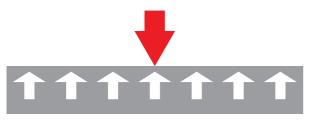

Regular sales meetings and service trainings take place in PBT company

- ☐ Product presentations in all important exhibitons
- ☐ Live machines demonstrations

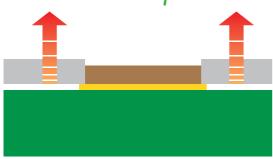

UNIQUE FEATURES OF OUR SYSTEMS

Rigid machine body

- Smart design
- Suitable for heavy duty
- ☐ High lifetime accuracy

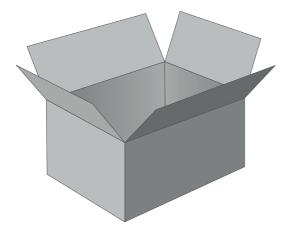

Smooth stencil separation

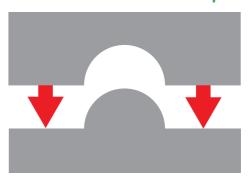

- Strictly parallel separation of stencil from board
- Controlled double speed of table for high throughput

Compact machines

- Outstanding but simple design
- ☐ Great features in standard configuration
- ☐ Magnetic and vacuum tooling kit included
- Wide range of customized toolings

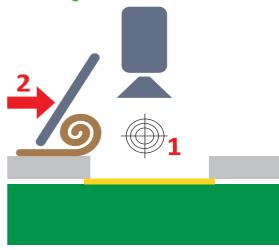

Precise fit of movable parts

- Wearing resistant design
- Stability of adjusted stencil-to-board position

Printing under cameras

- Unique alignment system through stencilto-board
- No movement of board and stencil after alignment
- □ Laser-guided vision for fast product chan-
- Automatic alignment system accepts reduced apertures

PRINTING MACHINES OVERVIEW

23" Pı	rinters	≥ 29" ן	orinters
FA23 / A23	Go23	Go29	GoLED

PRINTER WITH AUTOMATIC ALIGNMENT SYSTEM

- ☐ Maximal printing area for 23" stencil
- ☐ High flexibile mid-size production
- Prototyping
- Research

UNIQUE FEATURES

- Very fast setup for new and repeated products
- ☐ Unique double squeegee with minimized blades distance
- Smooth pneumo-hydraulic separation with very low speed, important for printing HI-density structures
- ☐ Integrated underside cleaning system
- □ Programmable print gap
- Programmable print modus

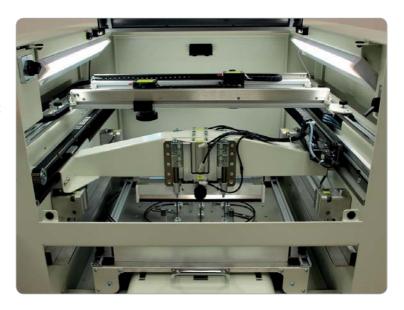

CONTROL SYSTEM

- □ PC with WINDOWS®7 OS
- □ All print parameters programmable
- Operator influence eliminated
- Dual speed of table separation
- ☐ Three password levels
- Logging of all process parameters
- ☐ Process data transfer to LAN possible

ALIGNMENT SYSTEM

- □ Stencil-to-board automatic alignment system with unique through-stencil view technology
- System can use square solder pads or printable ficucials
- Alignment system also accepts reduced apertures
- □ No table movement after alignment
- □ Keeping the accurate position independent on physical and climatic influence

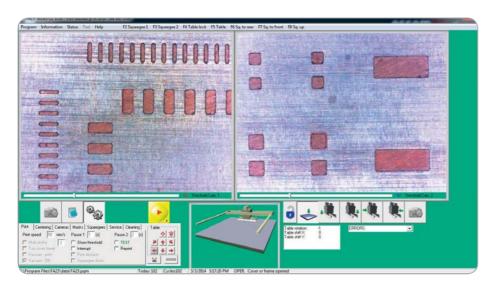

PRINTER WITH SOFTWARE SUPPORTED ALIGNMENT SYSTEM

ALIGNMENT SYSTEM

- ☐ Vision process uses image analysis of pad edges
- ☐ Filter for surface irregularity integrated

Instruction guides operator to quick align

SEMI AUTOMATIC SMD STENCIL PRINTER WITH VISION SYSTEM

APPLICATION

- □ Maximal printing area for 23" stencil
- Printing of very small chips, BGA, LGA structures
- ☐ Easy and repeatable print process with low investment costs

UNIQUE FEATURES

- ☐ Minimal pitch of squeegee edges
- ☐ Fine control of snap-off process (speed, uniformity)
- □ Special stand for the machine available to save shopfloor space

PLC CONTROLLER WITH TOUCH SCREEN AND PROGRAMMING **CAPABILITY**

SETUP SQ. REAR POSITION:	/ MA	NU.	4ESS	4.0	MENU
SQ. FRONT POSITION:	0	OVERLA STENCI	AP	1.5	A

SQUEEG HOME POS		ног	TABLI ME POS		FRAME POSITION:
SQ. REAR	SQ.	UP TAB		BLE UP	
SQ. FRONT	SQ.1	SQ.1		ABLE DWN	OPEN

Adjustable magnetic board support to compensate board thickness

■ Pneumatic lock of print frame

- Easy opening with pneumatic servosystem
- Stops at any angle
- ☐ Fully weight ballance

- Quick squeegee clamping
- Springloaded paste deflectors

SEMI AUTOMATIC SMD STENCIL PRINTER WITH VISION SYSTEM

APPLICATION

- Maximal printing area for 29" stencil
- Printing of very small chips, BGA, LGA structures
- Easy and repeatable print process with low investment costs

UNIQUE FEATURES

- Minimal pitch of squeegee edges
- ☐ Fine control of snap-off process (speed, uniformity)
- Special stand for the machine available to save shopfloor space

- ☐ Easy opening with pneumatic servo- system Stops at any angle.
- Extra wide opening angle for easy stencil cleaning and tooling adjustment
- ☐ Frame clamping with adjustable width
- Easy access to printing area for solder paste application
- Pneumatic lock of print frame
- ☐ Fast squeege exchange no tool needed
- Automatic squeegee lift for frame exchange and paste refill
- Laser-guided and movable vision system for quick setup
- Fast board changeover
 Only partial opening
 needed for handling
- Adjustable magnetic board support tooling

GoLED

SEMI AUTOMATIC AUTO DRIVE STENCIL PRINTER

APPLICATION

- □ LED and other large-format printing tasks
- ☐ For frame with size up to 1500x600x40mm
- ☐ Max printed board size 1400x420x4mm

UNIQUE FEATURES

- ☐ Based on printers Go23 and Go29
- ☐ Pneumatic lifting of upper part with stencil frame
- Synchronous separation of table
- ☐ Fast changeover and very easy operation
- □ Robust solution for harsh conditions in 24/7 production

CONTROL SYSTEM

- PLC touchscreen
- ☐ Programmable range or squeegee
- ☐ Controlled separation speed of table
- □ Password protection in three levels

ROBUST LARGE FORMAT SMT PRINTER

APPLICATION

- □ Printing area for 29" x 35" stencil
- Prototyping for large complex PCB assemblies
- ☐ Capacity backup for inline system

UNIQUE FEATURES

- Extraordinary stable steel sheet frame of machine
- ☐ Unique double squeegee with minimised blades distance
- ☐ Smooth pneumo-hydraulic separation with very low speed, important for printing of HI-density structures
- ☐ Integrated underside cleaning system
- Programmable print gap
- □ Programmable print modus

CONTROL SYSTEM

- □ PC with WINDOWS®7 OS
- □ All print parameters programmable
- Operator influence eliminated
- Dual speed of table separation
- Three password levels
- Logging all process parameters
- □ Process data transfer to LAN possible

ALIGNMENT SYSTEM

- Stencil-to-board automatic alignment system with unique through-stencil view technology
- □ System can use fiducials, or any suitable solder pads
- Alignment system also accepts reduced apertures
- □ No table movement after alignment
- □ Stable accurate position independent from physical and climatic influence

UNIPRINT

MANUAL AND SEMI-MANUAL STENCIL/SCREEN PRINTERS

TWO SIZES: SMALLER UNIPRINT AND LARGER UNIPRINT P

LIFT - PNEUMATIC SEPARATION OF BOARD FROM STENCIL

GUIDED SQUEEGEE SYSTEM

- □ Better printing result
- ☐ Uniform and balanced squeegee pressure
- Easy moving
- ☐ Simple models upgradable by guided squeegee

UNIPRINT P 300

☐ Height of printed subject up to 300 mm

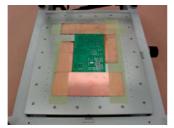

UNIPRINT TABLE AND CLAMPING

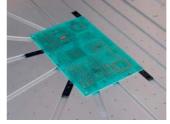

FOUR DIFFERENT PRINT TABLE TYPES FOR PCB FIXING

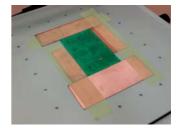

- Magnetic table (M) □ Solution for both side boards
- Support bars, pins, vacuum cups
- ☐ Hole and edge fixation pins

Vacuum table (V)

Grooved table (G) ☐ Fixing pins

Simple table (S)

DIFFERENT CLAMPING SYSTEMS FOR STENCIL FRAMES

Fast slide-in with fixed width

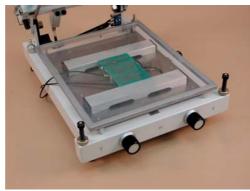

Adjustable screw bars

Slide-in adapters for screw bars

REGISTRATION FRAMES

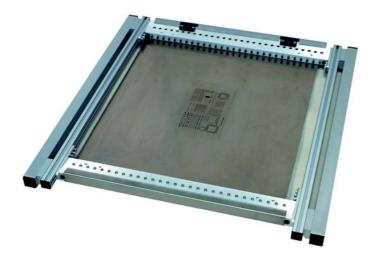

- □ Registration frame increases the accuracy for print alignment
- ☐ Tested printing to check alignment

PBT TENSIONING FRAMES

TENSIONING SPRING LOADED (SPRUNG) STENCIL FRAME 20"/23"

- ☐ Suitable for all PBT printer 23"
- ☐ Available for other printers on market
- □ Springy pins on one side
- ☐ Defined by springs sitting under of each pin
- ☐ Stencil is fixed by stainless comb
- ☐ Stability and low weight of frame
- Easy readjustment

TENSIONING SCREW STENCIL FRAME

- ☐ Specified in two dimension for PBT printers UNIPRINT and UNIPRINT P
- ☐ Stencil is fixed by the stainless combs
- ☐ Frame si fixed in printer on screw bars

STENCIL FRAME DATA

	Tensioning spring loaded stencil frame 20"/23"	Tensioning screw stencil frame		
Available for Printers	PBT printer 23" A29 with adapter	UNIPRINT (smaller)	UNIPRINT P (larger)	
Max. stencil format (mm)	564 x 434	390-490 x 320	475-580 x 320	
Min. stencil format (mm)	30 x 185	30 x 250	30 x 475	
Max. tensioning force	2500 N			
Thickness of stencils	100-300 um			
Weight	4 kg	2 kg	2.6 kg	
Max outer dimension (mm)	605 x 584 x 25	490 x 350 x 37	585 x 350 x 37
